

CONTENTS

LIST OF TABLES	vii
INTRODUCTION	1
ACAROLOGY	
General Procedure For Submission Of Specimen	4
Specimen Collection And Preparation	5
Acarines specimens from humans	5
Acarine specimens from animals	6
Specimens from the environment	7
BACTERIOLOGY	
General Procedure For Submission Of Specimen	8
Specimen For Bacteriological Examination:	
Collection, Media And Transport	8
Examination for Fungal Infection	14
Examination For Anaerobic Bacterial Infection:	17
Collection, Media And Transport	
Detection of DNA of <i>Mycobacterium tuberculosis</i> Complex by PCR	20
Detection of <i>Bordetella pertussis</i> in the pernasal nasopharyngeal swab	22
Detection of Serum Antibody	22
BIOCHEMISTRY, CLINICAL	
General Procedure For Submission Of Specimen	23
Specimen Collection And Preparation	24
<i>Blood</i>	
<i>Urine</i>	
Metabolic Diseases/Inborn Error of Metabolism (IEM)	25
Heavy Metals and Trace Elements	28
Paraprotein, serum	28
Paraprotein, Urinary	28
BIOCHEMISTRY, NUTRITIONAL	
General Procedure For Submission Of Specimen	35
Specimen Collection And Preparation	
ENDOCRINOLOGY, CLINICAL	
General Procedure For Submission Of Specimen	37
Specimen Collection And Preparation	
HAEMATOLOGY	
General Procedure For Submission Of Specimen	39
Specimen Collection And Preparation	40
Blood Specimen	

Bone Marrow Specimen

IMMUNOLOGY

General Procedure For The Submission Of Specimen 43
Specimens For Immunological Investigations

MEDICAL ENTOMOLOGY

General Procedure For Submission Of Specimen 47
Specimens For Identification And Other Tests:
Collection And Preparation 48

- Bugs – Bed, Triatomid or Other bugs
- Fleas
- Sandflies, Blackflies and other biting midges
- Flies
- Lice- Body, Head or Pubic
- Cockroaches
- Mites
- Mosquitoes
- Venomous and Urticarial Arthropods

MOLECULAR PATHOLOGY

General Procedure For Submission Of Specimen 52
Toxocara antibody test (ELISA)

PARASITOLOGY

General Procedure For Submission Of Specimen 53
Specimens For Examination Of Intestinal 53
Protozoan And Helminthic Infections:
Collection, Preparation And Transport
Specimens For Examination Of Schistosomiasis: 56
Collection, Preparation And Transport
Specimens For Examination Of Vaginal Trichomoniasis: 57
Collection, Preparation And Transport
Specimens For Examination Of Filariasis: 57
Collection, Preparation And Transport
Specimens For Examination Of Malaria: 58
Collection, Preparation And Transport
Specimens For Examination Of Toxoplasmosis: 60
Collection, Preparation And Transport

STOMATOLOGY

General Procedure For Submission Of Specimen 62
Specimen Collection And Preparation 63
Biopsy
Imprint
Smear

Patient Consultation	64
VIROLOGY	
General Procedure For Submission Of Specimen	64
Specimen Collection And Preparation	
Specimens for Isolation	65
Specimens for Rapid Diagnosis e.g. Antigen Detection	67
Specimens for Serology	67
Specimens for genome detection by the polymerase chain reaction (PCR)	68
Materials Obtainable From The Division Of Virology	68
CHARGES FOR LABORATORY TESTS	
Biochemical Examinations	70
(Biochemistry, <i>Nutrition</i> And Clinical Endocrinology)	
Special tests	
Quantitative Analysis	
Test for Inborn Error of Metabolism/Metabolic Diseases Category	
Test for Heavy Metals and Trace Elements	
Miscellaneous	
Test Packages	
Microbiological And Serological Examinations	74
(Bacteriology, Virology And Serology And Immunology)	
Bacteriology	
Virology	
Immunology	
Viral Culture for Identification	
Cellular Immunological Tests	
RNA / DNA Detection	
Special Test	
Parasitological Examination	77
Light microscopy	
Identification of Acarine	
Identification of Entomological Specimens	
Culture	
Immunological Techniques	
Pathological Examinations	78
(Cytology, Histopathology & Stomatology)	
Haematological Examination	79

LIST OF TABLES

SPECIMENS FOR BIOCHEMICAL DETERMINATIONS	28
Metabolic/ Inborn Error of Metabolism	31
Heavy Metals, Trace Elements, and Drug Abuse	33
Routine Diagnostic Test	34
Blood Specimens For Nutritional Biochemistry	34
Serum Specimens For Hormonal And Tumour Markers Assays	38
Specimens For Haematology	40
Specimens For Immunological Investigations	43
No Appointment Required	
Appointment Required (MLT)	
Appointment Required (MO)	
Normal Values	45
Immunoglobulins	
Complements	
Total Ig E Level	
T And B Cells Enumeration	
Specimens For Examination Of Cestode Infections	61
Specimens For Examination Of Nematode Infections	61
Specimens For Examination Of Trematode Infections	61
Specimens For Examination Of Protozoan Infections	62
Specimens For Virology	69
